

Garbage collection, recycling and composting

Positioning of wheeled bins

The wheels and handles of the BLUE, GREEN AND BROWN BINS must be facing the house since the lifting is done now by an automated truck.

Never place wheeled bins on the sidewalk or in the street. This can interfere with circulation. Place the bin at the curb, in the driveway, after 6 p.m. the day before collection day or the same morning before 6 a.m.

All recyclables or garbage must be inside the wheeled bin. No material outside the wheeled bin will be picked up. Instead, wait for the next collection.

Thank you for your collaboration.
