

VILLE DE
HUNTINGDON

Huntingdon, April 13, 2023

To the Owners

**Subject: Town of Huntingdon - West sector of Dalhousie Street
Construction of curbs and paving 2023
O/Ref: 41097TTJ**

Madam,
Sir,

Entrepreneur Pavages Ultra inc., mandated by the City of Huntingdon, will undertake paving and concrete curb construction work in the spring of 2023 on part of Lasselle and Bowron Streets, located west of Dalhousie Street.

In order to limit the inconvenience on your land, be sure not to pave your driveway and do your landscaping before the construction of the borders and the laying of the paving.

During the work, scheduled for late May and early June, vehicle access to your property will be disrupted to allow construction of the concrete curb. You will also need to determine the location of your private entrance.

The firm responsible for supervising this work is *Tetra Tech QI inc.*

For any questions regarding this work, please contact Mr. Marco Gauthier, Director of Infrastructure and Public Works of the City at 450-264-3611.

Receive, Madam, Sir, our best regards.

Mme Johanne Hébert
Directrice générale
Ville de Huntingdon
